

*Polymer modification is a  
KEY to innovative  
composite materials  
development.*

*Full custom-made product  
modification available for  
the best match with your  
technical challenge.*

---

## *Graft Polymer products for the Rotomolding Market.*

---

### ❖ Crosslinking PE, PP (powder)

- GRAFTALEN XLPE - XLPP  
High pressure, high impact.

### ❖ PE, PP grafted powders

- For rotomolding **HYBRID** formulation with:
  - PO - PA/PET/PBT/PC
  - PO - Fillers (GF, CF, mineral)

### ❖ Graftalen waxes for pigments dispersion

- PE, PP wax powder - g - MAH
