

*Polymer modification is a  
KEY to innovative  
composite materials  
development.*

*Full custom-made product  
modification available for  
the best match with your  
technical challenge.*

---

### *Graft Polymer products for the WPC Market.*

---

#### ❖ Composite based on PP

- GRAFTABOND PPH-MAH 70025 (CA)  
Low dosage is required due to the high grafting (0.8-1%)

#### ❖ Composite based on HDPE

- GRAFTABOND HD-MAH 01830 (CA)  
Low dosage is required (0.8-1%) due to the high grafting.

#### ❖ Composite based on LLDPE

- GRAFTABOND LL-MAH 01830 (CA)  
Low dosage is required (0.8-1%) due to the high grafting.

#### ❖ Composite based on PVC

- GRAFTABOND CPE-MAH
- GRAFTABOND SB-MAH
